

Coach's task:

37. Open the website <https://friends.in.ua/serialdruzi/> and find the following elements by XPath: (video)  
This picture will help you understand the tasks. The letter of the task is opposite the line for which you need to search for XPath
- Title "СЕРІАЛ ДРУЗІ ВСІ СЕЗОНИ УКРАЇНСЬКОЮ МОВОЮ ОНЛАЙН"
  - Parent of the task result "a" by the word parent
  - Parent of the task result "b" by attribute
  - This element by 2 attributes (picture)
  - Answer the question: what can you replace the name of any tag with?

ID Запит XPath та результат

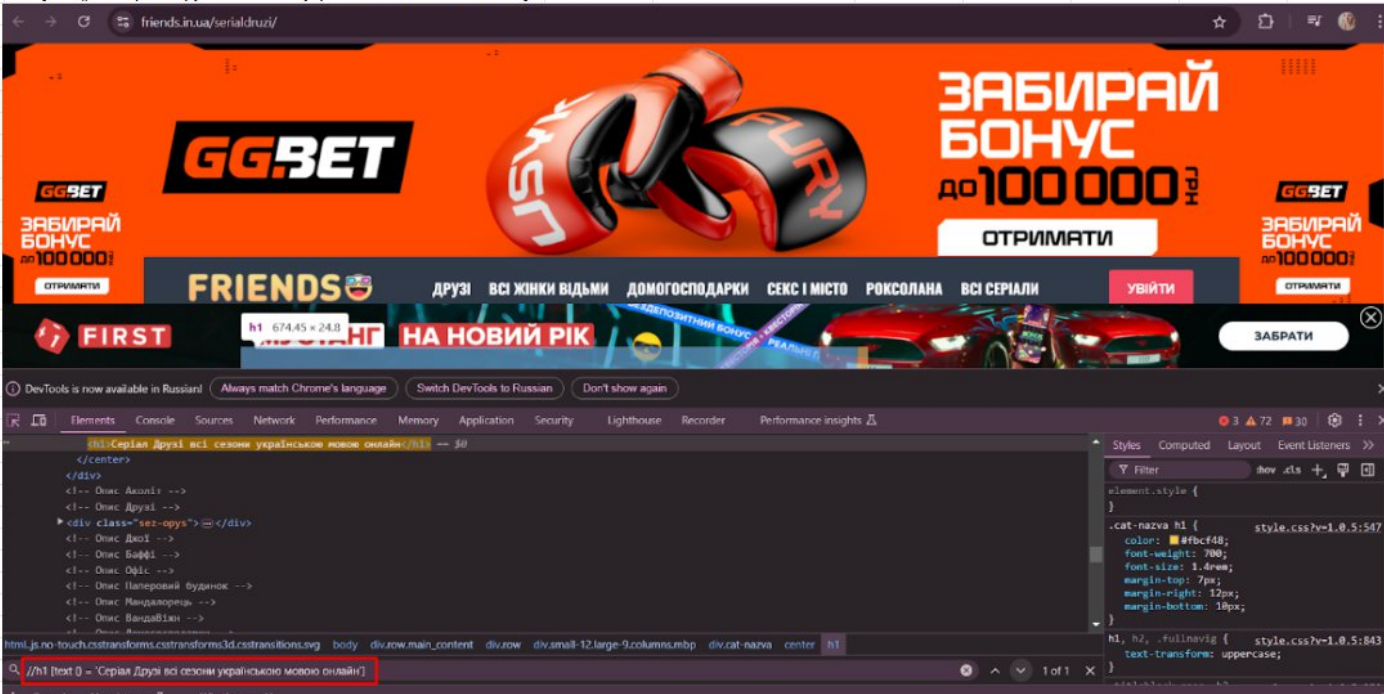

a) Title "СЕРІАЛ ДРУЗІ ВСІ СЕЗОНИ УКРАЇНСЬКОЮ МОВОЮ ОНЛАЙН"

You can find it in two ways:

1) //h1 (by the h1 tag because it is 1)

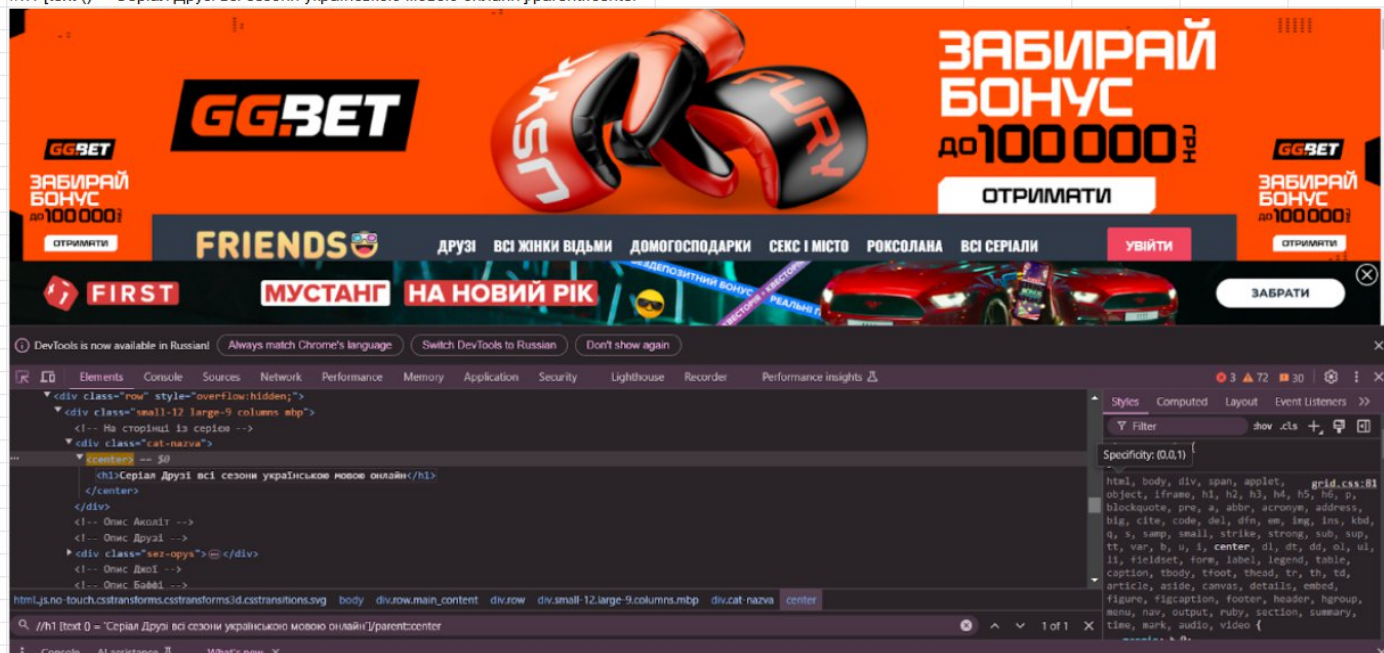

2) by text

//h1 [text () = 'Серіал Друзі всі сезони українською мовою онлайн']

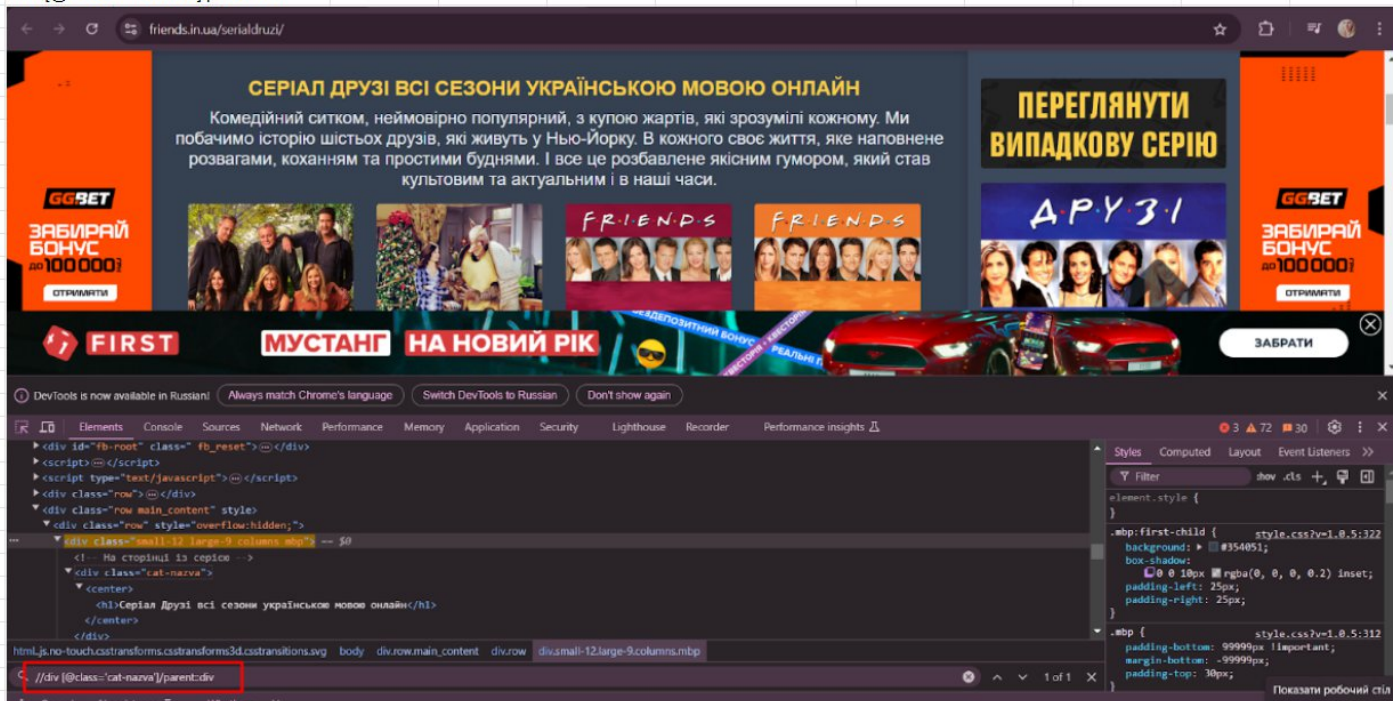

b) The parent of the result of task "a" by the word parent

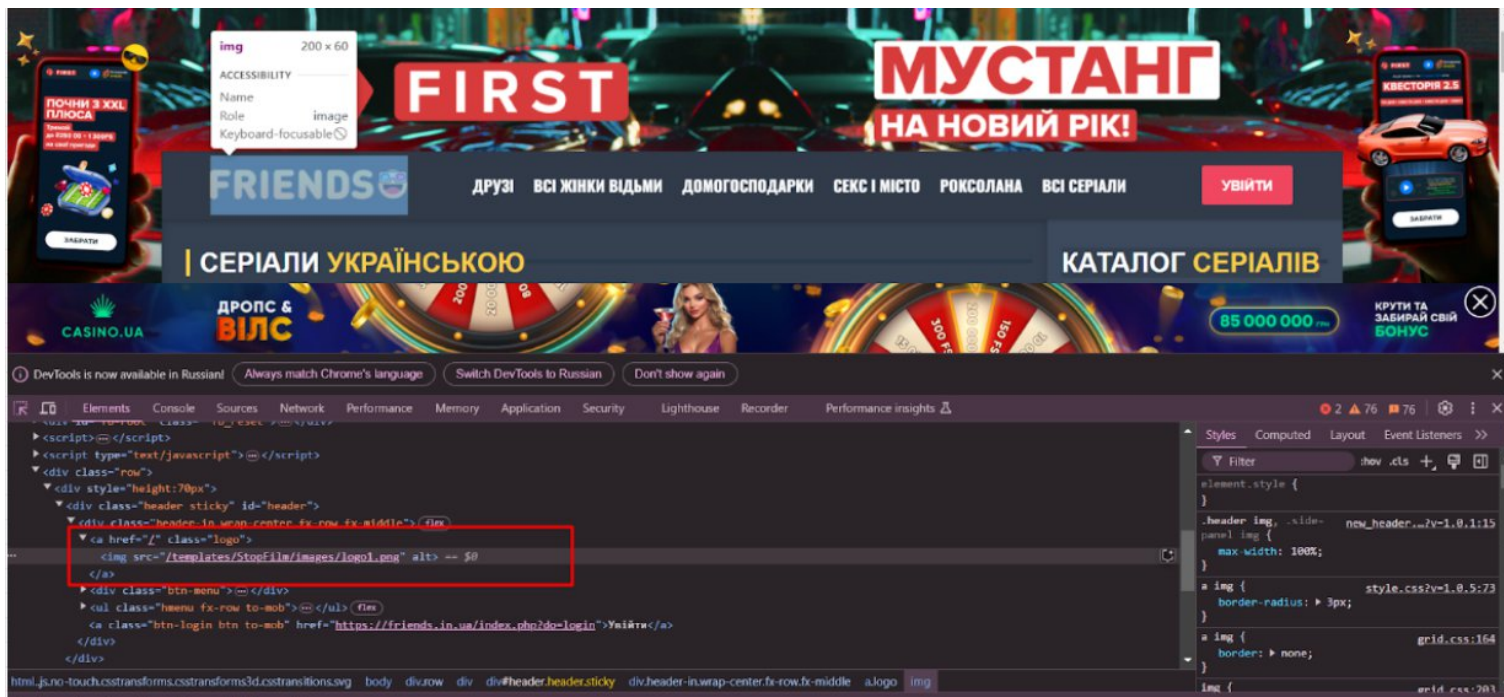

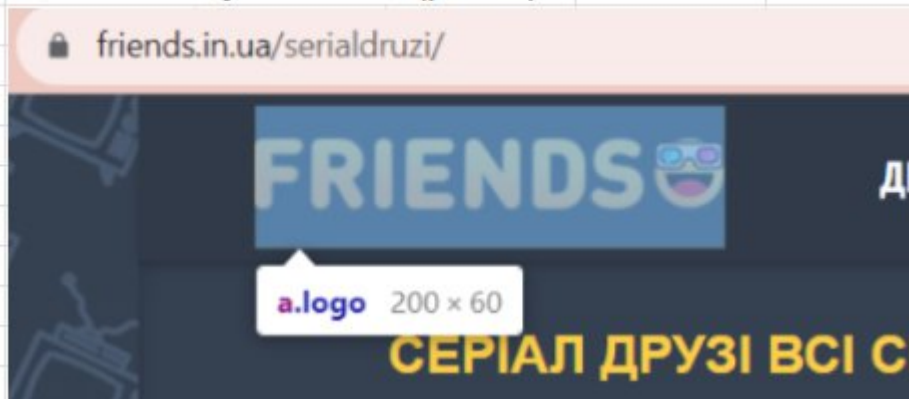

//h1 [text () = 'Серіал Друзі всі сезони українською мовою онлайн']/parent::center

c) Parent of task result "b" by attribute  
//div [@class='cat-nazva']/parent::div

d) This element by 2 attributes (picture)

//a[@href="/" ][@ class ="logo"]

The screenshot shows the GG.BET website interface. At the top, there's a navigation bar with the GG.BET logo and a menu in Ukrainian: ДРУЗІ, ВСІ ЖІНКИ ВІДЬМІ, ДОМОГОСПОДАРКИ, СЕКС І МІСТО, РОКСОЛАНА, ВСІ СЕРІАЛИ. Below this is a banner for 'FRIENDS' with a 'МУСТАНГ' logo and text 'НА НОВИЙ РІК'. A 'ЗАБРАТИ' button is on the right. The Chrome DevTools console is open, showing the source code of the page. The 'Elements' panel is also open, showing the HTML structure of the header. The 'Styles' panel is open, showing the CSS rules for the header. The 'Console' panel shows a warning about a missing image file.

e) Answer the question: what can you replace the name of any tag with?

You can replace the name of any tag with an asterisk. For example `//*/h2`, where the `/*` symbol represents any tag.
