Summary	The Home and Options buttons in the app are at different widths from the edges of the page	The text on the registration page is not visible when a user registers in the application	Incorrect error text when entering password during application registration
Pre-condishions	Download the "Абук" application in the Play Market: https://play.google.com/store/apps/details?id=com.abuk&hl=ru&gl=US	Download the "Абук" application in the Play Market: https://play.google.com/store/apps/details?id=com.abuk&hl=ru&gl=US	Download the "Абук" application in the Play Market: https://play.google.com/store/apps/details?id=com.abuk&hl=ru&gl=US

Steps	1. Look at the bottom of the screen	1. Click the "Options" button in the bottom menu of the application	1. Click the "Options" button in the bottom menu of the application
	2. Evaluate the placement of the bottom menu buttons: "Home", "Search", "Read", "My Books", and "Options"	2. Activate the "Dark mode" checkbox	2. Click the "Login" button
		3. Click the "Login" button	3. Click the "Register" button
		4. Click the "Register" button	4. Enter your data to register in the application: name: Anna, e-mail: niki2023happinewyear@gmail.com, password: Password1, password confirmation: Password1

		6. Click on the eye icon next to the entered password to see and verify the information entered.	
		7. Click "Back" to return to the main page	
		8. Click the "Options" button in the bottom menu of the application	
		9. Deactivate the "Dark mode" checkbox	
		10. Click the "Login" button	
		11. Click the "Register" button	
		12. Enter your data to register in the application: name: Anna, e-mail: niki2023happinewyear@gmail.com, password: Padword1, password confirmation: Padword	
Expected result	The bottom menu buttons: "Home", "Search", "Read", "My Books", and "Options" are located at the same distance from the left and right edges of the screen and are equidistant from each other.	All user-entered text in light and dark mode must be readable and contrasting against the page background.	**Note:** I don't know the technical specifications, so based on the error text I understand that it needs to be corrected because the system does not allow Cyrillic characters.

When entering a password in Cyrillic, the error text should appear: The password must contain at least 6 characters, including a combination of Latin letters and numbers |
Actual result	The Home and Options buttons are at different distances from the left and right edges of the screen in terms of width	User-entered text in dark mode is light gray on a white background, making it difficult to see. It is easy for the user to make mistakes. In light mode, the information is displayed correctly.	When the user enters 6 Cyrillic letters and 1 number, the system does not indicate the need to replace Cyrillic letters with Latin letters and does not perform registration
Post-condition	Exit the application	Log out of your account and exit the app	Exit the application
